Pavillon 3 (ground floor)

5

Thursday, September 18

Congrès de la SFAR

6

Salle 315 (3th floor)

7

Salle 352A (3th floor)

8

Amphi Bleu (2nd floor)

9

18h30 SFAR cocktail reception

9

Tuesday, September 16

Faculté de Médecine. Site des Cordeliers
15 Rue de l'École de Médecine, 75006 Paris

Welcome

ACRP Room (ground floor)

CATERING. EXHIBITION

Amphi Frézal (3rd floor)

08h30-08h45	Welcome address: Dominique Simon, Jean-Michel Constantin
08h45-10h15	Chairpersons: Dominique Simon, Wulf Stratling
08h45-09h30	History of WFSA. David Wilkinson
09h30-10h15	Safety in anaesthesia in France. André Lienhart
10h15-10h45	Coffee break
10h45-12h15	Chairpersons: Frédérique Servin, Alistair McKenzie
10h45-11h15	Helmut Schwilden and his contributions to the evolution of model-based anaesthesia . Jürgen Schüttler
11h15-11h45	Development of EEG analysis as a monitoring tool. Valérie Billard
11h45-12h15	From surgical shock to neuroleptanaesthesia. Frédérique Servin
12h15-14h00	Lunch Break
14h00-15h30	Chairpersons: Valérie Billard, Peter Featherstone
14h00-14h30	Claude Bernard's input to anaesthesia and intensive care. Jean-Jacques Lehot
14h30-15h00	The centenary of the elucidation of the chemical structure of morphine in 1925. Alistair McKenzie
15h00-15h30	First ether administrations in France in 1847. Jean-Bernard Cazalaà, Frédérique Servin
15h30-16h00	Coffee break
16h00-18h00	Chairpersons: Jean-Louis Scholtes, Christine Ball
16h00-16h25	Some famous French scientists for the development of anaesthesia. Yvonnick Blanlœil
16h25-16h50	Paul Bert input in anaesthesia. Jacques Hotton
16h50-17h10	How Lyons stood alone in choosing ether over chloroform in France 1849-1895. Alistair McKenzie
17h10-17h30	Reassessing the Shared History of Modern Anesthesia Apparatus in Britain and Canada. Connor Brenna
17h30-17h50	Moore's Compressor and Its Imitators: Between a Tourniquet and a Compressor. Jun Parker
17h50-18h00	General discussion

Pavillon 3 (ground floor)

10h45-12h15	Chairpersons: Jacques Hotton, Peter Featherstone
10h45-11h05	Blinded by the benefits: the history of supplemental oxygen use in premature infants. Peter Featherstone
11h05-11h25	A little history on hypothermia, oxygen, barometric pressure. Jan Hofland
11h25-11h45	History of the management of malignant hyperthermia in France. Renée Krivosic Horber
11h45-12h05	Raphael Dubois's 1884 anesthesia machine. Jean-Bernard Cazalaà, Jacques Hotton
12h05-12h15	<i>General discussion</i>
12h15-14h00	Lunch Break
14h00-15h30	Chairpersons: Dominique Simon, Jun Parker
14h00-14h20	Remembering a painful loss: The Jewish Medical Community in Berlin before the Shoah, Dr. Ernst Silberstein (Siltan) (1866-1943). Wulf Stratling
14h20-14h40	Dr Gwen Wilson (1916-1998). Jane McDonald
14h40-15h00	Reflections from the past: A historical audit of the Alfred Hospital First Operating Theatre Archive (1884. 1888). Natalie Apelbaum, Genna Verbeek
15h00-15h20	Peter Safar: His Fundamental Contributions to Resuscitation and Prehospital Care. Deborah Roy
15h20-15h30	<i>General discussion</i>
15h30-16h00	Coffee break
16h00-17h30	Chairpersons: Hiroshi Makino, Louis-Jean Dupré
16h00-16h20	Moore's Compressor and Japan: the conceptual birth of loco-regional anaesthesia in pre-Meiji Japan. Jun Parker
16h20-16h40	Did French Doctors Active During Japan's Rapid Westernization Perform Anesthesia. Hiroshi Makino
16h40-17h00	Anaesthesia, anthropology and colonialism in the Pacific. Michael Cooper, Pauline Wake
17h00-17h20	Anaesthesia intersecting with the men and women of evolution and literature. Michael Cooper
17h20-17h30	<i>General discussion</i>

Wednesday, September 17

Faculté de Médecine Site des Cordeliers
15 Rue de l'École de Médecine, 75006 Paris

Amphi Frézal (3rd floor)

08h30-10h00	Chairpersons: Francis Bonnet, Louis-Jean Dupré
08h30-09h00	Evolution of spinal anaesthesia from 1980 to 2025. Francis Bonnet
09h00-09h30	Paul Reclus (1847-1914): The basics of infiltration anaesthesia are still relevant after more than a century. Marc Gentili
09h30-10h00	From tactile sensation to ultrasounds: history of the identification of the epidural space. Louis-Jean Dupré
10h00-10h30	Coffee break
10h30-12h00	Chairpersons: Dominique Simon, Alistair McKenzie
10h30-11h15	Contributions of American and English scientists to transfusion and critical care medicine. Yvonnick Blanlœil
11h15-12h00	Development of closed loop control in anaesthesia. Luc Barvais
12h00-12h15	<i>General discussion</i>
12h15-14h00	Lunch Break

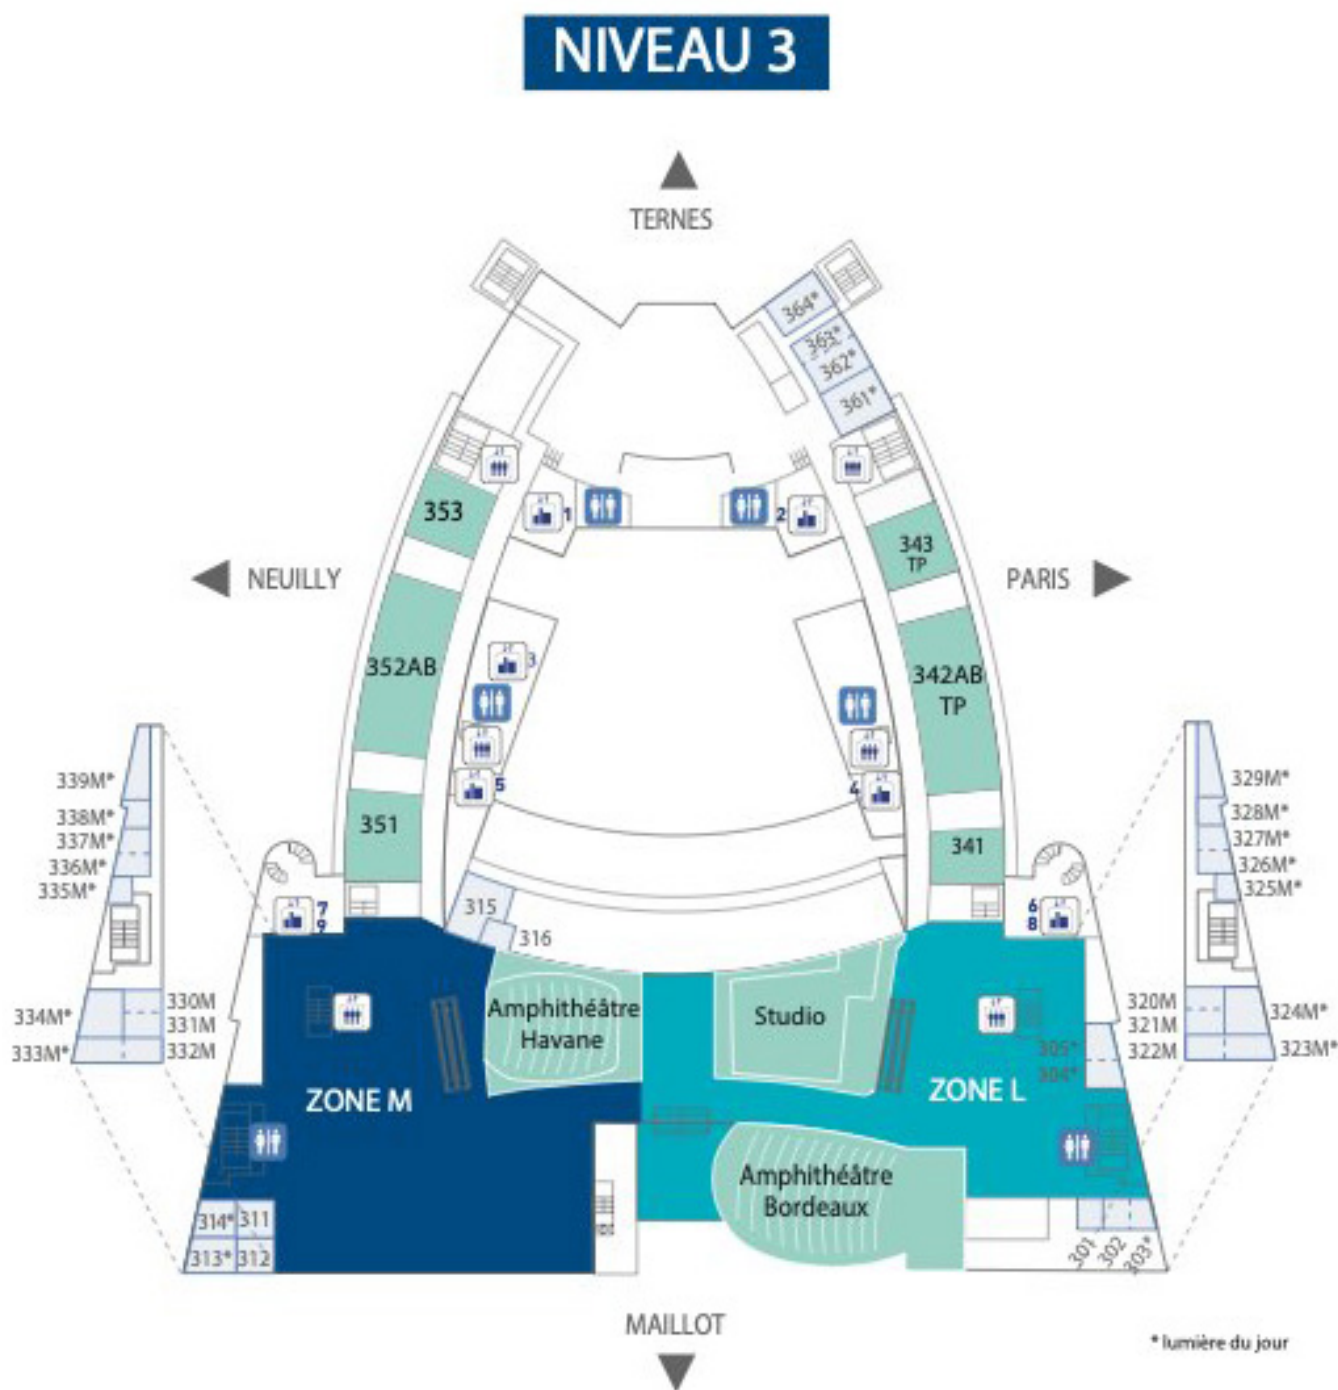

Pavillon 3 (ground floor)

08h30-10h00	Chairpersons: Jean-Louis Scholtes, Wulf Stratling
08h30-08h50	An Ermold inhaler. Bruno De Turck
08h50-09h10	Ombrédanne's inhaler availability on the French antiquarian market. Jacques Hotton
09h10-09h30	The Wohlgemuth apparatus. Wulf Stratling
09h30-09h50	The history of the rotameter part 1 Re-appraising early beginnings in France Germany and central Europe. Wulf Stratling
09h50-10h00	<i>General discussion</i>

Thursday, September 18

Congrès de la SFAR
2 Place de la Porte Maillot 75017 Paris

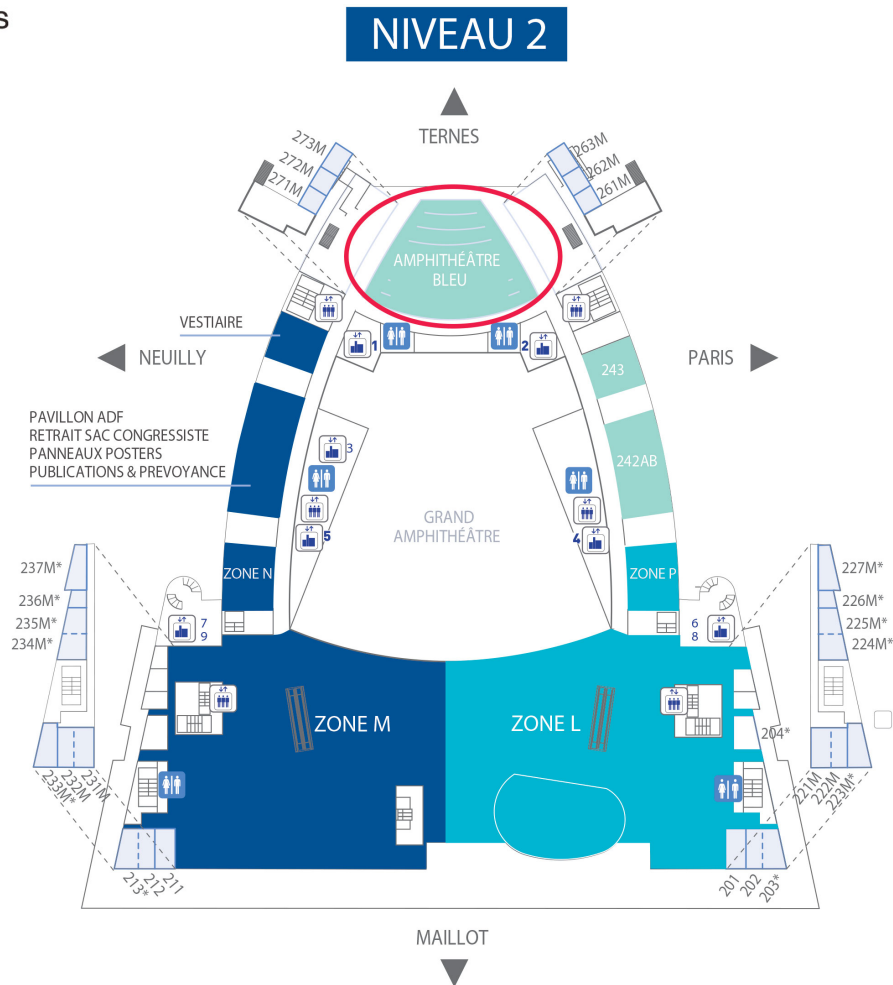

Salle 315 (3th floor)

08h30-10h00	Chairpersons: Wulf Stratling, Marc Gentili
08h30-08h50	History of Anesthesia and Professional Identity Formation of Medical Trainees. Anuj Aggarwal
08h50-09h10	Teaching Tomorrow's Doctors with Yesterday's Anesthetic. Melissa Coleman
09h10-09h30	Development of a Medical Student Anesthesia History Clerkship. Wendy N'Guyen
09h30-09h50	What Have We Learned ? A Survey of Anesthesiology's Contributions to Patient Safety Literature. Andrea Vannucci
09h50-10h00	<i>General discussion</i>
10h00-10h30	Coffee Break
10h30-12h00	Chairpersons: Isabelle Constant, Frédérique Servin
10h30-11h00	Pharmacognosy in Paris. the prompt to pancuronium. Alistair McKenzie
11h00-11h30	Pupil diameter and pupil dilatation reflex: a long (too long) way from physiologists to physicians. Valérie Billard, Isabelle Constant
11h30-11h50	A biography of Carl Ludwig Schleich. Jacques Hotton
11h50-12h00	<i>General discussion</i>
12h00-14h00	Lunch break ISHA Young Anaesthetist Prize
14h00-15h30	Chairpersons: Jacques Hotton, Michael Cooper
14h00-14h20	Management of Traumatic Shock During World War I: An Early Example of Translational Medicine ? Nicolas Ducrocq
14h20-14h40	World War I (1914-1918) -Developing the practice of blood transfusion and blood banks. Wulf Stratling
14h40-15h00	World War I (1914-1918) reconstructive surgery: its interactions with anaesthesia and the narratives concerning Harold Delf Gillies (1882 1960). Wulf Stratling
15h00-15h20	What would J Alfred Lee have thought of Nurse Anaesthetists? Andrew Walpole
15h20-15h30	<i>General discussion</i>
15h30-16h00	Coffee break
16h00-17h30	Chairpersons: Dominique Simon, Hiroshi Makino
16h00-16h20	The McKesson Respir-aid Rocking Bed. Peter Featherstone
16h20-16h40	From Mesmerism to the First Anesthetic in Latin America. Alberto de Armendi
16h40-17h00	Evolution of infusion solutions and their containers. Jean-Bernard Cazalaà, Dominique Simon
17h00-17h20	History of the Port-a-Cath... the Frigidaire of central venous access ? Eric Desruennes
17h20-17h30	<i>General discussion</i>

Salle 352A (3th floor)

08h30-10h00	Chairpersons: Chris Ball, Jean-Louis Scholtes
08h30-08h50	History Repeats Itself: Sister Anaesthetists Anaesthesia Associates and the Lessons We Risk Forgetting. Basel Obeidat
08h50-09h10	The Vernon-Harcourt's chloroform inhaler. Jacques Hotton
09h10-09h30	James Carrick Moore and the Origins of Brachial Plexus Anaesthesia: A Forgotten Legacy of Moore's Compressor in the 18th Century. Jun Parker
09h30-09h50	Nutmeg: How a Simple Spice Altered Minds and Fueled Colonialism. Kaitlyn Kulesus
09h50-10h00	<i>General discussion</i>
10h00-10h30	Coffee Break
10h30-12h00	Chairpersons: Barry Baker, Jean-Pierre Haberer
10h30-11h10	123 years of innovation in anaesthesia: How incidents and clinical experience shaped the development of "modern" technology - a shared heritage of transdisciplinary and international cooperation. Wulf Stratling
11h10-11h35	Bjørn Ibsen, the anaesthetist who invented modern intensive care in 1952. Olivier Collange
11h35-12h00	Paul Janssen. Luc Barvais
12h00-14h00	Lunch break ISHA Young Anaesthesist Prize
14h00-15h30	Chairpersons: Jean-Pierre Haberer, David Wilkinson
14h00-14h20	Is the Search Complete? Methodology for High-Yield Historical Biomedical Database searches. Melissa Coleman
14h20-14h40	Anaesthesia as a means to an artistic end? About an action art project at the art exhibition in Kassel, Germany, in 1972. Wilfried Witte
14h40-15h00	A retrospective bibliometric analysis of the evidence supporting practice in anaesthesia. Jane O'Donnell
15h00-15h20	From Witches to Wearables: The Journey of Scopolamine in Nausea and Anesthesia. Anuj Aggarwal
15h20-15h30	<i>General discussion</i>
15h30-16h00	Coffee break
16h00-18h00	Chairpersons: Barry Baker, Michael Cooper
16h00-16h20	Pain, Progress, and Practice: A Historical Review of Anesthesia in Canada. Wesley Rajaleelan
16h20-16h40	Dr Mark Lidwill and ether impurities in 1915. Barry Baker
16h40-17h00	From Sumerian's Grass of joy to today's opioid free anesthesia. Anne Deneuve
17h00-17h40	"Backstage contributions" of marketing and manufacture to (e)marging anaesthesia and inhalation therapy – an untold history of an internationally influential network: Dräger-Silberstein, Inhabad and Foregger. Wulf Stratling
17h40-18h00	<i>General discussion</i>

Amphi Bleu (2nd floor)

12h00-14h00	Lunch Break
14h00-16h00	Chairpersons: Sébastien Bauquier
14h00-15h00	Veterinary and medical research in Liverpool. Eddie Cluton, Jennifer Hunter.
15h00-16h00	Anesthesia and analgesia in wartime. Jérôme Arnould des Lions, Pierre Pasquier
16h00-16h30	Coffee break
16h30-18h30	Chairpersons: Delphine Holopherne
16h30-17h30	Changes in analgesia practice over a career. Kursheed Mama, Frédéric Aubrun
17h30-18h30	Is Laboratory Animal Anesthesia Still Prehistory. Eddie Cluton, Chris Ball

18h30 SFAR cocktail reception

2nd floor stand SFAR
